

I recently moved from Arkansas to Georgetown Tx, which is in the Austin area. I have noticed that the Austin chanel's have poor closed captioning in most of the local stations. I did complain to KVUE by telephone and never got a response from them. It is certainly frustrating for the Deaf/Hard of Hearing population to enjoy television when the cc is unreadable, or in many cases no cc at all. Please let me know if there is anything I can do to help myself and the viewers in Austin area to be able to enjoy television as well as the hearing people do. Thank you, Sharon Wisnoski
